**TO BE DECIDED TODAY**

Fate of the Pacific Railroad Bill in the Balance.

**FORECAST OF CONGRESS' WORK.**

Over One Hundred Million Dollars Involved in the Refunding Bill—Appropriation Bills Will Be Next in Order—Cameron's Resolution May Come Up in the Senate—Free Homestead Bill.

WASHINGTON, Jan. 11.—The fate of the Pacific railroad funding bill will be decided today, when the measure, with the pending amendments, will come to a vote under the special order under which the house is proceeding. The bill involves the settlement of the \$112,000,000 of indebtedness of the Union Pacific and Central Pacific on the basis of an extension of over 80 years at 2 per cent with an annual extinguishment payment on the principal at the rate of \$365,000 for the first 10 years, \$380,000 for the second 10 years and \$780,000 for the remaining years. It involves as the alternative of its defeat the probable immediate foreclosure of the government's lien and the sale of the property. It is the culmination of the struggle which has gone on in congress for a dozen years to secure some sort of an adjustment of the Pacific railroad indebtedness on the basis of an extension, as it has been apparent for a long period that the roads would default when the bonds matured.

The interests at stake are gigantic and the friends of the bill are straining every nerve. The opponents of the measure are also active and the result is awaited with intense interest. Each side last night claimed to be victorious. Both sides have made polls of the members upon which they predicate their claims. Before the final vote is taken on the bill the Bell and Harrison substitutes, both of which are pending, will be voted upon. The former provides that if the Union Pacific and Central Pacific will discharge the first mortgage indebtedness of \$61,000,000 so as to advance the government's lien to a first mortgage the government will agree to an extension of the debt at a low rate of interest. The Harrison substitute provides for the creation of a commission consisting of the secretary of the treasury, the secretary of the interior and the attorney general, for the settlement of the debt on a basis fair to the roads and just to the government.

After the funding bill is disposed of the house will proceed with the consideration of appropriation bills until Saturday, when life will be given up to eulogies on the life and character and public services of the late ex-Speaker Crisp.

The Indian and military appropriation bills are on the calendar and before they are disposed of the agricultural bill will be brought on.

**Senate.**

WASHINGTON, Jan. 11.—The course of the senate this week will depend largely upon whether Senator Cameron will call up his Cuban resolutions. If he decides to press the resolutions there will be a determined effort to aid him in this direction, but in any event there is likely to be a few speeches on Cuba. The Pettigrew free homestead bill is expected to reach a vote today or tomorrow, and it is to be followed by the Pacific railroad bill if the latter bill passes the house.

**Money Missing.**

Ten-Dollar Notes Mysteriously Disappeared from the Treasury.

WASHINGTON, Jan. 11.—Five sheets of \$10 notes aggregating in value \$500, are mysteriously missing from the treasury department and the officers of the secret service are diligently engaged in an effort to unravel the mystery. The disappearance of the money is a cause of considerable embarrassment to the clerks and messengers of the treasury's office, because of the uncomfortable feeling that each is more or less under suspicion. A most comprehensive search has been made and everybody who could possibly throw any light on the subject has been examined, but so far without revealing the whereabouts of the money or the identity of those responsible for its absence.

**INAUGURATION.**

Arrangements for the Event Are Progressing Satisfactorily.

WASHINGTON, Jan. 11.—The arrangements for the inauguration of President-elect McKinley are progressing in a manner very satisfactory to the committees having them in charge and it is believed that the decorations, illuminations and ceremonies incident to this event will be at least equal in beauty and impressiveness of those of any former inauguration.

A large number of committees composed of prominent citizens, each having in charge a single feature, are working in perfect accord and the results so far obtained gives assurance of complete success. All of the money asked for by the executive committee has been contributed and a number of contracts already have been let.

**VERMONT'S SENATOR.**

Goes to Cleveland to Consult, but Doesn't Want Office.

WASHINGTON, Jan. 11.—Senator Proctor of Vermont has returned from Cleveland, where he was in consultation with President-elect McKinley. The senator declines to discuss for publication the object of his visit, as he says his conference with Major McKinley was entirely confidential. Mr. Proctor, however, felt free to say for himself that it has been known that he personally did not want and would not accept a cabinet position or any other office.

**PRESIDENT-ELECT MCKINLEY.**

He Attends Church and Is Cheered When He Leaves.

CLEVELAND, Jan. 11.—President-elect McKinley remained at the home of Colonel Myron T. Herrick yesterday. In company with Mr. and Mrs. Herrick he attended services at the Old Stone church. There was a large congregation present. The pastor prayed for divine blessing upon the president-elect and those who were to compose his administration. As Mr. McKinley was about to leave the church an amusing incident occurred. After he had taken his seat in the carriage three small boys ranged themselves in line before the carriage door. The president-elect bowed and smiled, and was about to say a pleasant word to the youngsters, when one of them, evidently by pre-arrangement, cried: "Three cheers for McKinley." The cheers were given with a hearty good will, while the assembled bystanders clapped their hands and the president-elect's face was wreathed in smiles.

The opinion among those who claim to know is that Senator Sherman will be offered and will accept the secretaryship of state in Mr. McKinley's cabinet, and that Mr. Hanna will not be one of the cabinet advisers of the next president. It is believed to be certain that Mr. Hanna will be appointed as the successor of Mr. Sherman in the senate.

Regarding the selection of Cornelius N. Bliss of New York for secretary of the navy it is said that Mr. Bliss has been offered the place, but that he deferred his acceptance until he could ascertain whether he could so arrange his business affairs as to permit of his taking the place.

General Alger of Michigan is counted as certain to be the secretary of war.

cause of a remarkable demonstration. The church was filled to overflowing by Catholics from all parts of the city and many Protestants, among them Mayor Sprague and other distinguished citizens, who assembled to hear the reverend doctor's farewell sermon. A pontifical mass was celebrated by Bishop Beaver of Springfield, and after the gospel Dr. Conaty delivered his farewell, many people in the congregation shedding tears as he bade them goodbye, while the speaker himself was visibly affected at times. In the afternoon the children of the Sunday school gave him a farewell reception and last evening the parish farewell reception was given him, the church being filled, as it was in the morning. The exercises consisted of addresses from the charitable and benevolent societies of the church by John Timon, from the young people's societies by Andrew J. McCarron and from the parish by Matthew B. Lamb, who presented to Dr. Conaty as a testimonial from the parish a check for \$2,000.

**BISHOP KEANE.**

Honors to Be Conferred by the Pope—He Will Remain in Rome.

ROME, Jan. 11.—It is now certain that Bishop Keane, formerly of Washington, will be nominated as bishop assistant at the pontifical throne, although the nomination has not yet been officially made. The pope will also nominate him as titular archbishop and canon of the patriarchal basilica and adviser to some Roman congregations. Hence Bishop Keane will make his stay here in order to render services to the vatican in American religious matters.

The Times dispatch gives the name of the discoverer as Giuseppe Sanarelli, an eminent disciple of Pasteur and director

**RECEIVED A DRUBBING**

Spanish Troops Severely Defeated by Texas Rangers.

**SPANISH COMMANDER CAPTURED**

Brilliant Attack by the Lone Star Company, Which Resulted in the Taking of a Supply Train—Tents, Arms and Ammunition Secured and Carried into the Mountains.

KEY WEST, Jan. 11.—News received from the Pinar del Rio country to the effect that the "Lone Star" company of Texas rangers in the Cuban army had again distinguished themselves. They defeated a much larger force than themselves, capturing the Spanish captain and provision train that the Spanish detachment was guarding.

A detachment of 300 Spanish cavalry was escorting a train load of provisions near Balaco, when they were halted by a sudden and fierce firing from the hillside by which they were passing. It was too steep to charge up, and the Spaniards replied as best they could, taking shelter on the opposite side of the road. Hardly had they done this when a cross fire was opened on them from that side in their rear, the Texans, who, by the way, only numbered 100 men, ambushing both sides of the road. The Spaniards then retreated down the road, hoping to draw the attacking party out.

The Texans, seeing them fly, came out from one side despite their officers' efforts to restrain them, and with reckless courage and with shouts of "Cuba Libre," dashed after the Spaniards. Getting them well out of their shelter, the Spaniards turned and poured in a hot fire and then charged. The "Lone Star" boys met them and the shock was terrible. Men were unhorsed, thrown down and men and beasts mixed up in an inextricable mass.

The second detachment of Texans came up at this moment, and the Spaniards again retreated, this time capturing a lieutenant named Stone, and placing him in the rear, to prevent his comrades from firing on them. The gallant Texans were greatly enraged at this, and notwithstanding that the Spaniards greatly outnumbered them, charged upon them with such fierceness that they could not be withstood, and the Spanish troops fell back in disorder, and Stone was recaptured.

Captain Pavinia, the Spanish commander, was wounded and fell from his horse. He was instantly surrounded by the enemy, placed on a horse and taken off the field before his troops could rally and succor him.

The Texans then returned to the train, and taking possession of it, carried it into the hills to Colonel Rogers's camp. Tents, arms, ammunition and provisions were in the convoy. The Spaniards returned to the field several hours later and buried their dead and took their wounded away.

Another dispatch says: A schoolboy of 10 years was killed in Guanabacoa on Thursday evening by a Spanish patrol because he refused to hurrah for Spain. The lad smiled when the soldiers asked him to hurrah not comprehending what they wanted. They cursed him as a "Cuban whelp," butchered him not two squares from his home and left his body in the street.

In the fields surrounding the city dogs have been seen eating human flesh and gnawing human bones. More than 500 people have moved from Guanabacoa within 10 days. Another large pit with dead bodies in it was discovered Thursday near Guanabacoa in thick underbrush. Decomposition was too far advanced to prevent recognition of the bodies. It is supposed that these victims of Spanish cruelty belonged to the poorer class of that suburb, as many have been reported "missing" lately.

**EXCITEMENT AT LEADVILLE.**

Citizens Turn Out and Reinforce the Police.

LEADVILLE, Col., Jan. 11.—The killing of Frank Dougherty, a striker, Saturday, by Policeman Gynon, has caused intense excitement throughout the city. Owing to the threats of lynching, armed citizens turned out and reinforced the police guard at the county jail and there was apprehension.

The happiness of married life depends on the wife's health often more than on any other one consideration. An ailing woman is a source of discontent to herself and a burden and drag upon her husband. Women by taking more interest in their own physical condition would be the best foundation for married happiness and every other happiness. More than half the suffering which afflicts women is due to some disorder of the organs directly traceable to some disorder of the female system. There is a remedy for such troubles; they are invariably cured by Dr. Pierce's Favorite Prescription, which reaches and strengthens the internal generative organs as no other treatment can possibly do. By restoring health and strength to the best foundation of the female constitution, the "Favorite Prescription" gives new tone and energy to all the rest of the body.

One of the most deeply interesting and truly educative books ever written is the "People's Common Sense Medical Adviser," by Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. This splendid volume of 1,000 pages, includes ninety pages on the subject of diseases peculiar to women, with directions for home treatment, rendering unnecessary the employment of such remedies as are now so commonly used, and is a complete medical library in one volume. No other medical book in the English language ever had such an enormous sale. 650,000 copies were sold in 1896. Dr. Pierce is now distributing a new free edition of half a million copies. A copy will be sent absolutely free to anyone who will send to the World's Dispensary Medical Association, Buffalo, N. Y., one-cent stamp to pay cost of mailing only. The present edition is in all respects the same as that sold at \$1.00.

last night that trouble may yet arise. It is claimed by the police that about a dozen striking miners including Dougherty, had planned "to do up" the special police force. Dougherty was shot while resisting arrest. After the shooting no further effort was made to wipe out the police. A crowd of several hundred had collected at the saloon where the shooting took place, however, and the provost guard had to fix bayonets and charge before the street was cleared.

Some Strong Recommendations Made by Indiana's New Governor.

INDIANAPOLIS, Jan. 11.—Governor Mount was inaugurated at noon today in the presence of a large and brilliant assemblage. After taking the oath of office the farmer governor delivered an address in which he recognized fully the responsibilities devolving upon himself. Laws are recommended correcting abuses in building associations; compulsory education is favored; attention is called to the fact that this state pays but \$4,000 for sanitary work among live stock, while other commonwealths expend from \$10,000 to \$150,000 and favors the abolishment of the present sanitary board; recommends encouragement of the good roads system now being developed in the state; calls attention to the existing abuses and the opportunities for such given road supervisors; says county commissioners and township trustees should be held to a rigid account for the moneys expended by them, and strongly recommends that the law relating to the publications of their reports be made mandatory; the state tax laws are criticized as levying unequal burdens; asks for a just apportionment law; of the centennial proposition the legislators are advised to proceed cautiously; trusts and combinations of capital should be prohibited by law; prisoners in the penal institutions should be graded; benevolent institutions receive praise, and the state board of charities is commended.

Dr. Kirkpatrick, pastor of the Second Universalist church of this city, who was arrested some days ago, charged with impersonating an officer, has been unanimously acquitted by jury trial. When the announcement of "not guilty" was made the spectators in the courtroom broke into cheers. His congregation stood by him solidly, all expressing confidence in his innocence throughout the trial.

**Flying Signals of Distress.**

HALIFAX, Jan. 11.—A large steamer was sighted off Whitehead late yesterday flying signals of distress. A heavy snowstorm prevented the near approach of schooners and small boats which had started out to her, and at dark the unknown vessel was firing rockets. It is thought that it is either the steamer Damara, overdue here some days from Cardiff, or the State of Georgia, from Dantzic for Halifax.

Troopship Nubia Arrives at Plymouth.

PLYMOUTH, Jan. 11.—The cases of cholera on board the troopship Nubia, which arrived here Saturday, have been confined to the troops. On Sunday most of the passengers landed after the usual precautions against cholera had been taken. The remaining cholera patient, together with a few of the suspects, were taken to the hospital, while the troops were detained on board.

Georgia claims to have driven the trust out of her limits by her new state law. As a result of the operation of that measure the American Tobacco Company, the Potash Trust, the Snuff Trust, the Coffee Trust, the Match and other trusts that have been operating in Georgia, have notified jobbers and merchants throughout the state handling their goods that the anti-trust act made their existing contracts unlawful and they would, therefore, no longer be considered by either party. This throws the long closed market wide open to competition.

## A Valued Enterprise.

E. W. Blish, surveyor, and G. F. Harlow, Edmund J. Miller and Calvin Talley, viewers, are to-day looking over a ditch to be six miles in length, beginning at Retreat. It will drain a large tract of land that has been covered with a large pond of water and will make one of the finest farms in Vernon township.

## In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

## Death of Mrs. Brannaman.

We are called upon to announce the death of Mrs. Christian Brannaman which occurred at her home in Clearspring at 8 o'clock Sunday night, January 10, 1897. She had been quite indisposed for some time with pneumonia but her condition was not considered alarming until Friday last when she suddenly took a turn for the worse and she continued to rapidly grow worse till death came to her relief. Mrs. Brannaman was one of the best known ladies in Owen township, where she was born January 12, 1820, and has resided there all her life. A husband, seven sons and five daughters survive among whom are W. T. and sisters, Misses Martha and Frances, of Seymour, who have the tender sympathy of all. The children here went there today to attend the funeral which will take place to-morrow afternoon at 1 o'clock.

## Shooting Gallery.

The person making the most centers in two weeks at our gallery, will receive a fine revolver free.

## W. A. CARTER &amp; SON.

## Nice Anniversary.

Miss Ella, daughter of Wm. Acker, was eighteen years old yesterday and in the evening her home was crowded with her young friends who assisted in royally celebrating the event. Refreshments were served and the occasion was a success in every way. Miss Ella is one of Seymour's pleasing young ladies.

## Their Stock in Trade.

Many people have very erroneous ideas of the value of the space in a news paper. It takes time, judgment, skill and money to build up a good circulation and reputation for a paper, and these must be taken into account no less than the cost of setting type and printing and distributing papers. The space in a paper is a part of its capital just as a doctor's or a carpenter's time is a part of his capital. No one would think of stepping into a surgeon's office and asking him to amputate a limb free because he has nothing else to do. No one would expect a carpenter who had spent years in learning his trade to build a fence simply to put in his time. Everyone knows that a physician's time and a carpenter's labor are their capital, and just so the time, labor and space in a reputable newspaper are its capital, though some do not realize it.

## Resigned

Elder Z. T. Sweeney, who has been pastor of the Christian church at Columbus for twenty-five years, tendered his resignation last night. He expects to enter the lecture field where he has had considerable success and will give his entire time to that work. This leaves the largest Christian church in the state and one of the strongest in the entire denomination without a pastor.

## U. V. L. INSTALLATION.

Patrick Hanna Encampment Gave Their Friends an Enjoyable Saturday Evening

The second annual installation of officers of Patrick Hanna Encampment No. 144 Union Veteran Legion was had Saturday night, January 9, 1897, and was one of the most enjoyable occasions ever given in Seymour with Colonel William R. Day, installing officer; Col. Thomas A. Reed; Lieut. Col. John D. Clark; Major, James Gasaway; Chaplain, Wm. R. Day; Q. M., Joseph McNelly; Adj., absent; Surgeon, Benjamin Werning; O. G., James Curry; Ser. Maj., John Dixon; Q. M. S., Capt. John P. Carr; Color Bearer, F. H. Plump; Sentinel, W. H. Sneed; bugler, John Hamilton.

The John Hamilton and R. W. Brooks orchestras furnished the music. Miss Mertel, thirteen year old daughter of Mr. Brooks handled the bass violin, and she is without doubt the best we ever heard for one of her age. Addresses were made by Mayor Joseph Balsley and Revs. J. W. Clevenger and T. J. Stevenson. Rev. Clevenger spoke for more than an hour and he paid a strong compliment to the boys in blue who risked their lives on the field of battle in defense of their country and his entire address was loudly applauded. Supper was then announced and it consisted of the best the land affords. The waiters were ladies and they did their part well. Mrs. El Reed and Miss Maud Reed were robed in white and were ready waiters. The exercises ran all night to the midnight hour, and the guests, numbering nearly 400, all enjoyed themselves well. The encampment is in a prosperous condition.

## Condensed Testimony.

Chas. B. Hood, broker and manufacturer's agent, Columbus, Ohio, certifies that Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trial bottles at W. F. Peter's, successor to J. H. Andrews &amp; Co.'s drug store. Regular size 50c. and \$1.00.

## Utah's Death Penalty.

There is one state in Union which permits the death penalty to be inflicted by shooting. That state is Utah, the newest of all. A murderer named Patrick Coughlin was lawfully shot to death in Rich County a fortnight ago by a firing squad composed of Deputy Sheriffs. The law, which is derived from the previous territorial legislation on the subject, allows the convict to choose whether he will be hanged or shot. The validity of the statute was questioned some years ago in the supreme court of the United States, but it was upheld.

## The Life Line.

Starting from the base of the big toe there is a distinct line. This is the life line. In one foot it will curve along until it terminates under the instep far toward the lower base of the little toe. This means long life. If broken in the hollow of the foot it denotes a sickness at middle age, and if it terminates in the hollow of the foot it means a short life. This line is the most interesting one on the foot. The experiments that have been conducted lately have proved this to be an almost unerring reading of longevity.

## As to Peace Justices.

One of the subjects that has probably been most freely discussed without result is that of the justices of the peace. It is a constitutional office, and one that can not be abolished, but it surely can be shorn of the many abuses that have crept into it. There should be a salary attached to the office just as with judges of courts. In discussing the subject, Justice-of-the-Peace W. H. Nicholson, of Indianapolis, says:

I heartily approve of the suggestion made to cut off all fees and place peace justices on a salary. I hope such a bill will be passed by the legislature. The person signing himself 'J. P., Bedford, Ind.', voices my views in some measure. I am opposed to the fee system. No matter how honorable a man may be when he takes the place under the present system, a certain odium is attached to the office. There are too many justices in this township. It has got to be so that there is a scramble to get business, even to solicit business. I do not see how a justice of the peace can keep honest if he solicits business. The moment he solicits a man's business he places himself under obligations to that person. It is true that we do a great deal of business for nothing. We are human and some of us, perhaps, have to make up for these gratuitous services.

The suggestion is made in the Indianapolis News that the justices should be appointed by the circuit court. It is not necessary that they should be appointed by any one. Let them be elected, as now. These courts are not expected to be supplied with lawyers as justices. They are the people's courts, and not courts for trying technical points of law. In fact, the fewer lawyers in these courts the better it will be for the people who bring their grievances into them.

Justice Nickerson seems to have hit the meat of the question, which could well be taken as a text for the legislature to work upon.—Evansville Journal.

**Fate of the Pacific Railroad Bill In the Balance.**

**FORECAST OF CONGRESS' WORK.**

Over One Hundred Million Dollars Involved in the Refunding Bill—Appropriation Bills Will Be Next In Order—Cameron's Resolution May Come Up In the Senate—Free Homestead Bill.

WASHINGTON, Jan. 11.—The fate of the Pacific railroad funding bill will be decided today, when the measure, with the pending amendments, will come to a vote under the special order under which the house is proceeding. The bill involves the settlement of the \$112,000,000 of indebtedness of the Union Pacific and Central Pacific on the basis of an extension of over 80 years at 2 per cent with an annual extinguishment payment on the principal at the rate of \$395,000 for the first 10 years, \$380,000 for the second 10 years and \$750,000 for the remaining years. It involves as the alternative of its defeat the probable immediate foreclosure of the government's lien and the sale of the property. It is the culmination of the struggle which has gone on in congress for a dozen years to secure some sort of an adjustment of the Pacific railroad indebtedness on the basis of an extension, as it has been apparent for a long period that the roads would default when the bonds matured.

The interests at stake are gigantic and the friends of the bill are straining every nerve. The opponents of the measure are also active and the result is awaited with intense interest. Each side last night claimed it would be victorious. Both sides have made polls of the members upon which they predicate their claims. Before the final vote is taken on the bill the Bell and Harrison substitutes, both of which are pending, will be voted upon. The former provides that if the Union Pacific and Central Pacific will discharge the first mortgage indebtedness of \$81,000,000 so as to advance the government's lien to a first mortgage the government will agree to an extension of the debt at a low rate of interest. The Harrison substitute provides for the creation of a commission consisting of the secretary of the treasury, the secretary of the interior and the attorney general, for the settlement of the debt on a basis fair to the roads and to the government.

After the funding bill is disposed of the house will proceed with the consideration of appropriation bills until Saturday, which will be given up to eulogies on the life and character and public services of the late ex-Speaker Crisp.

The Indian and military appropriation bills are on the calendar and before they are disposed of the agricultural bill will be brought on.

**SENATE.**  
WASHINGTON, Jan. 11.—The course of the senate this week will depend largely upon whether Senator Cameron will call up his Cuban resolutions. If he decides to press the resolutions there will be a determined effort to aid him in this direction, but in any event there is likely to be a few speeches on Cuba.

The Pettigrew free homestead bill is expected to reach a vote today or tomorrow, and it is to be followed by the Pacific railroad bill if the latter bill passes the house.

Senator Quilliam, who will have charge of the legislative, executive and judicial appropriation bill, said yesterday that he expected to be able to report that measure by the middle of the week, and he would ask the senate to consider it as soon as reported.

**MONEY MISSING.**  
Ten-Dollar Notes Mysteriously Disappeared from the Treasury.

WASHINGTON, Jan. 11.—Five sheets of \$10 notes aggregating in value \$200, are mysteriously missing from the treasury department and the officers of the secret service are diligently engaged in an effort to unravel the mystery. The disappearance of the money is a cause of considerable embarrassment to the clerks and messengers of the treasurer's office, because of the uncomfortable feeling that each is more or less under suspicion. A most comprehensive search has been made and everybody who could possibly throw any light on the subject has been examined, but so far without revealing the whereabouts of the money or the identity of those responsible for its absence.

**INAUGURATION.**  
Arrangements for the Event Are Progressing Satisfactorily.

WASHINGTON, Jan. 11.—The arrangements for the inauguration of President-elect McKinley are progressing in a manner very satisfactory to the committees having them in charge and it is believed that the decorations, illuminations and ceremonies incident to this event will at least equal in beauty and impressiveness those of any former inauguration.

**BISHOP KEANE.**  
Honors to Be Conferred by the Pope—He Will Remain in Rome.

ROME, Jan. 11.—It is now certain that Bishop Keane, formerly of Washington, will be nominated as bishop assistant at the pontifical throne, although the nomination has not yet been officially made. The pope will also nominate him as titular archbishop and canon of the patriarchal basilica and adviser to some Roman congregations. Hence Bishop Keane will make his stay here in order to render services to the vatican in American religious matters.

**YELLOW FEVER GERMS.**  
Young Italian Doctor Makes a Discovery After Suffering From the Fever.

LONDON, Jan. 11.—A Times dispatch confirms the recent dispatch from Rome which said that a young Italian doctor had discovered the yellow fever germ after he had himself recovered from the disease at Rio de Janeiro, and that he had given the discovery under seal to the Rome Academy of Medicine. The Times dispatch gives the name of the discoverer as Giuseppe Sanarelli, an eminent disciple of Pasteur and director

of the Sanatory Institute at Rome. A large number of committees composed of prominent citizens, each having in charge a single feature, are working in perfect accord and the results so far obtained gives assurance of complete success. All of the money asked for by the executive committee has been contributed and a number of contracts already have been let.

**VERMONT'S SENATOR.**  
Goes to Cleveland to Consult, but Doesn't Want Office.

WASHINGTON, Jan. 11.—Senator Proctor of Vermont has returned from Cleveland, where he was in consultation with President-elect McKinley. The senator declines to discuss for publication the object of his visit, as he says his conference with Major McKinley was entirely confidential. Mr. Proctor, however, felt free to say for himself that it had been known that he personally did not want and would not accept a cabinet position or any other office.

**PRESIDENT-ELECT MCKINLEY.**  
He Attends Church and Is Cheered When He Leaves.

CLEVELAND, Jan. 11.—President-elect McKinley remained at the home of Colonel Myron T. Herrick yesterday. In company with Mr. and Mrs. Herrick he attended services at the Old Stone church. There was a large congregation present. The pastor prayed for divine blessing upon the president-elect and those who were to compose his administration. As Mr. McKinley was about to leave the church an amusing incident occurred. After he had taken his seat in the carriage three small boys ranged themselves in line before the carriage door. The president-elect bowed and smiled, and was about to say a pleasant word to the youngsters, when one of them, evidently by prearrangement, cried: "Three cheers for McKinley." The cheers were given with a hearty good will, while the assembled bystanders clapped their hands and the president-elect's face was wreathed in smiles.

The opinion among those who claim to know is that Senator Sherman will be offered and will accept the secretaryship of state in Mr. McKinley's cabinet, and that Mr. Hanna will not be one of the cabinet advisers of the next president. It is believed to be certain that Mr. Hanna will be appointed as the successor of Mr. Sherman in the senate.

Regarding the selection of Cornelius N. Bliss of New York for secretary of the navy it is said that Mr. Bliss has been offered the place, but that he deferred his acceptance until he could ascertain whether he could so arrange his business affairs as to permit of his taking the place.

General Alger of Michigan is counted as certain to be the secretary of war.

**DR. CONATY.**  
Church Filled to Overflowing to Hear His Farewell Address.

cause of a remarkable demonstration. The church was filled to overflowing by Catholics from all parts of the city and many Protestants, among them Mayor Sprague and other distinguished citizens, who assembled to hear the reverend doctor's farewell sermon. A pontifical mass was celebrated by Bishop Beaver of Springfield, and after the gospel Dr. Conaty delivered his farewell, while the speaker himself was visibly affected at times. In the afternoon the children of the Sunday school gave him a farewell reception and last evening the parish farewell reception was given him, the church being filled, as it was in the morning. The exercises consisted of addresses from the charitable and benevolent societies of the church by John Timon, from the young people's societies by Andrew J. McCarron and from the parish by Matthew B. Lamb, who presented Dr. Conaty as a testimonial from the parish a check for \$2,000.

**BISHOP KEANE.**

ROME, Jan. 11.—It is now certain that Bishop Keane, formerly of Washington, will be nominated as bishop assistant at the pontifical throne, although the nomination has not yet been officially made. **RECEIVED A DRUBBING**

**Spanish Troops Severely Defeated by Texas Rangers.**

**SPANISH COMMANDER CAPTURED**

Brilliant Attack by the Lone Star Company, Which Resulted in the Taking of a Supply Train—Tents, Arms and Ammunition Secured and Carried Into the Mountains.

KEY WEST, Jan. 11.—News received from the Pinar del Rio country to the effect that the "Lone Star" company of Texas rangers in the Cuban army had again distinguished themselves. They defeated a much larger force than themselves, capturing the Spanish captain and provision train that the Spanish detachment was guarding.

A detachment of 300 Spanish cavalry was escorting a train load of provisions near Balaco, when they were halted by a sudden and fierce firing from the hillside by which they were passing. It was too steep to charge up, and the Spaniards replied as best they could, taking shelter on the opposite side of the road. Hardly had they done this when a cross fire was opened on them from that side in their rear, the Texans, who, by the way, only numbered 100 men, ambushing both sides of the road. The Spaniards then retreated down the road, hoping to draw the attacking party out.

The Texans, seeing them fly, came out from one side despite their officers' efforts to restrain them, and with reckless courage and with shouts of "Cuba Libre," dashed after the Spaniards. Getting them well out of their shelter, the Spaniards turned and poured in a hot fire and then charged. The "Lone Star" boys met them and the shock was terrible. Men were hurled, thrown down and men and beasts mixed up in an inextricable mass.

The second detachment of Texans came up at this moment, and the Spaniards again retreated, this time capturing a lieutenant named Stone, and placing him in the rear, to prevent his comrades from firing on them. The gallant Texans were greatly enraged at this, and notwithstanding that the Spaniards greatly outnumbered them, charged upon them with such fierceness that they could not be withstood, and the Spanish troops fell back in disorder, and Stone was recaptured.

Captain Pavinia, the Spanish commander, was wounded and fell from his horse. He was instantly surrounded by the enemy, placed on a horse and taken off the field before his troops could rally and snuff him.

The Texans then returned to the train, and taking possession of it, carried it into the hills to Colonel Rogers's camp. Tents, arms, ammunition and provisions were in the convoy. The Spaniards returned to the field several hours later and buried their dead and took their wounded away.

Another dispatch says: A schoolboy of 10 years was killed in Guanabacoa on Thursday evening by a Spanish patrol because he refused to hurrah for Spain. The lad smiled when the soldiers asked him to hurrah not comprehending what they wanted. They cursed him as a "Cuban whelp," butchered him not two squares from his home and left his body in the street.

In the fields surrounding the city dogs have been seen eating human flesh and gnawing human bones. More than 500 people have moved from Guanabacoa within 10 days. Another large pit with dead bodies in it was discovered Thursday near Guanabacoa in thick underbrush. Decomposition was too far advanced to prevent recognition of the bodies. It is supposed that these victims of Spanish cruelty belonged to the poorer class of that suburb, as many have been reported "missing" lately.

**EXCITEMENT AT LEADVILLE.**  
Citizens Turn Out and Reinforce the Police.

LEADVILLE, Col., Jan. 11.—The killing of Frank Dougherty, a striker, Saturday, by Policeman Guyton, has caused intense excitement throughout the city. Owing to the threats of lynching, armed citizensturned out and reinforced the police guard at the county jail and there was apprehension.

The happiness of married life depends on the wife's health oftener than any other one consideration. An ailing woman is a source of discontent to herself and a burden and drag upon her husband. Women are taking more interest in their own physical condition would lay the best foundation for domestic happiness and every other happiness. More than half the suffering which ails the wife's health is directly traceable to some disorder of the organs distinctly feminine. There is no real need of such troubles; they are curable by Dr. Pierce's Female Prescription, which reaches and strengthens the internal generative organs as no other treatment can possibly do. By restoring health and strength to this most important part of the feminine constitution, the "Favorite Prescription" gives new tone and energy to all the rest of the body.

One of the most deeply interesting and truly educative books ever written is the "People's Common Sense Medical Adviser," by Dr. R. V. Pierce, Chief Consulting Physician of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. This splendid volume of red pages, including ninety pages on the subject of diseases peculiar to women, with directions for home treatment, rendering unnecessary the embarrassing "examinations," and generally a "local treatment," so dreaded by modest women. The book contains the most comprehensive explanation of human physiology and the rational principles of hygiene ever published. Illustrated with over 500 engravings—a complete medical library in one volume. No other medical book in the English language ever had such an enormous sale. 680,000 copies were sold at \$1.50 each. Dr. Pierce is now distributing a new free edition of half a million copies. A copy will be sent absolutely free to anyone who will send to the World's Dispensary Medical Association, Buffalo, N. Y., a card stating that they desire a copy. The present edition is in all respects the same as that sold at \$1.50 a copy.

last night that trouble may yet arise. It is claimed by the police that about a dozen striking miners including Dougherty, had planned "to do up" the special police force. Dougherty was shot while resisting arrest. After the shooting no further effort was made to wipe out the police. A crowd of several hundred had collected at the saloon where the shooting took place, however, and the provost guard had to fix bayonets and charge before the street was cleared.

Some Strong Recommendations Made by Indiana's New Governor.

INDIANAPOLIS, Jan. 11.—Governor Mount was inaugurated at noon today in the presence of a large and brilliant assemblage. After taking the oath of office the farmer governor delivered an address in which he recognized fully the responsibilities devolving upon himself. Laws are recommended correcting abuses in building associations; compulsory education is favored; attention is called to the fact that this state pays but \$4,000 for sanitary work among live stock, while other commonwealths expend from \$40,000 to \$150,000 and favors the abolishment of the present sanitary board; recommends encouragement of the good roads system now being developed in the state; calls attention to the existing abuses and the opportunities for such given road supervisors; says county commissioners and township trustees should be held to a rigid account for the moneys expended by them, and strongly recommends that the law relating to the publications of their reports be made mandatory; the state tax laws are criticized as levying unequal burdens; asks for a just apportionment law; of the central proposition the legislators are advised to proceed cautiously; trusts and combinations of capital should be prohibited by law; prisoners in the penal institutions should be graded; benevolent institutions receive praise, and the state board of charities is commended.

**Flying Signals of Distress.**  
HALIFAX, Jan. 11.—A large steamer was sighted off Whitehead late yesterday flying signals of distress. A heavy snowstorm prevented the near approach of schooners and small boats which had started out to her, and at dark the unknown vessel was firing rockets. On Sunday most of the passengers landed after the usual precautions against cholera had been taken. Georgia claims to have driven the train out of her limits by her new state law. As a result of the operation of that measure the American Tobacco Company, the Potash Trust, the Snuff Trust, the Coffee Trust, the Match and other trusts that have been operating in Georgia, have notified jobbers and merchants throughout the state handling their goods that the anti-trust act made their existing contracts unlawful and they would, therefore, no longer be considered by either party. This throws the long closed market wide open to competition.

## Their Stock in Trade.

Many people have very erroneous ideas of the value of the space in a news paper. It takes time, judgment, skill and money to build up a good circulation and reputation for a paper, and these must be taken into account no less than the cost of setting type and printing and distributing papers. The space in a paper is a part of its capital just as a doctor's or a carpenter's time is a part of his capital. No one would think of stepping into a surgeon's office and asking him to amputate a limb free because he has nothing else to do. No one would expect a carpenter who had spent years in learning his trade to build a fence simply to put in his time. Everyone knows that a physician's time and a carpenter's labor are their capital, and just so the time, labor and space in a reputable newspaper are its capital, though some do not realize it.

## U. V. L. INSTALLATION.

Patrick Honan Encampment Gave Their Friends an Enjoyable Saturday Evening

The second annual installation of officers of Patrick Honan Encampment No. 144 Union Veteran Legion was had Saturday night, January 9, 1897, and was one of the most enjoyable occasions ever given in Seymour with Colonel William R. Day, installing officer; Col. Thomas A. Reed; Lieut. Col. John D. Clark; Major, James Gasaway; Chaplain, Wm. R. Day; Q. M., Joseph McNelly; Adj., absent; Surgeon, Benjamin Werning; O. G., James Curry; Ser. Maj., John Dixon; Q. M. S., Capt. John P. Carr; Color Bearer, F. H. Plump; Sentinel, W. H. Snead; bugler, John Hamilton.

The "John Hamilton and R. W. Brooks orchestras furnished the music. Mrs. Mertel, thirteen year old daughter of Mr. Brooks handled the bass violin, and she is without doubt the best we ever heard for one of her age. Addresses were made by Mayor Joseph Balsley and Revs. J. W. Clevenger and T. J. Stevenson. Rev. Clevenger spoke for more than an hour and he paid a strong compliment to the boys in blue who risked their lives on the field of battle in defense of their country and his entire address was loudly applauded. Supper was then announced and it consisted of the best the land afforded. The waiters were ladies and they did their part well. Mrs. El Reed and Miss Maud Reed were robed in white and were ready waiters. The exercises ran all night to the midnight hour, and the guests, numbering nearly 400, all enjoyed themselves well. The encampment is in a prosperous condition.

## Condensed Testimony.

Chas. B. Hood, broker and manufacturer's agent, Columbus, Ohio, certifies that Dr. King's New Discovery has no equal as a cough remedy. J. D. Brown, Prop. St. James Hotel, Ft. Wayne, Ind., testifies that he was cured of a cough of two years standing, caused by la grippe, by Dr. King's New Discovery. B. F. Merrill, Baldwinville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor's, because it always cures. Mrs. Hemming, 222 E. 25th St., Chicago, always keeps it at hand and has no fear of croup, because it instantly relieves. Free trial bottles at W. F. Peter's, successor to J. H. Andrews & Co.'s drug store. Regular size 50c. and \$1.00.

## Utah's Death Penalty.

There is one state in Union which permits the death penalty to be inflicted by shooting. That state is Utah, the newest of all. A murderer named Patrick Coughlin was lawfully shot to death in Rich County a fortnight ago by a firing squad composed of Deputy Sheriffs. The law, which is derived from the previous territorial legislation on the subject, allows the convict to choose whether he will be hanged or shot. The validity of the statute was questioned some years ago in the supreme court of the United States, but it was upheld.

## The Life Line.

Starting from the base of the big toe there is a distinct line. This is the life line. In one foot it will curve along until it terminates under the instep far toward the lower base of the little toe. This means long life. If broken in the hollow of the foot it denotes a sickness at middle age, and if it terminates in the hollow of the foot it means a short life. This line is the most interesting one on the foot. The experiments that have been conducted lately have proved this to be an almost unfailing reading of longevity.

## As to Peace Justices.

One of the subjects that has probably been most freely discussed without result is that of the justices of the peace. It is a constitutional office, and one that cannot be abolished, but it surely can be shorn of the many abuses that have crept into it. There should be a salary attached to the office just as with judges of courts. In discussing the subject, Justice-of-the-Peace W. H. Nicholson, of Indianapolis, says:

I heartily approve of the suggestion made to cut off all fees and place peace justices on a salary. I hope such a bill will be passed by the legislature. The person signing himself J. P., Bedford, Ind., voices my views in some measure. I am opposed to the fee system. No matter how honorable a man may be when he takes the place under the present system, a certain odium is attached to the office. There are too many justices in this township. It has got to be so that there is a scramble to get business, even to solicit business. I do not see how a justice of the peace can keep honest if he solicits business. The moment he solicits a man's business he places himself under obligations to that person. It is true that we do a great deal of business for nothing. We are human and some of us, perhaps, have to make up for these gratuitous services.

The suggestion is made in the Indianapolis News that the justices should be appointed by the circuit court. It is not necessary that they should be appointed by any one. Let them be elected, as now. These courts are not expected to be supplied with lawyers as justices. They are the people's courts, and not courts for trying technical points of law. In fact, the fewer lawyers in these courts the better it will be for the people who bring their grievances into them.

Justice Nickerson seems to have hit the meat of the question, which could well be taken as a text for the legislature to work upon.—Evansville Journal.

## POLITICAL BRIEVITIES.

Capt. John K. Gowdy is quite ill at his home in Rushville.

Major McKinley has just had his life insured for \$50,000.

Kentucky republicans will test the apportionment law in that state in the courts. It is a gerrymander of the worst kind.

Senator Schneck has been made chairman of the committee on roads and is a member also of the committees on agriculture, banks, congressional apportionment and labor.

Harold M. Sewall has been elected to the Maine legislature as a republican to fill a vacancy. He is the son of Arthur W. Sewall, one of the vice presidential tails on the late popocrat ticket.
